grafite's portfolio is categorised into five segments:
designs shown are commonly available in all three sizes

this pdf showcases all designs in white's & grey's

design name: A → Z

design tone:

my designing fraternity now has the wings of all the new possibilities,
grafite ceramics made it possible to transform spaces exactly the way
you imagine it.

choose the design you like
let us know the way you need the touch & feel of the surface to be...
we will make as per sizes you need

RAVI PATEL
architect – chief managing director
grafitè ceramics pvt ltd

Grafitè | conventional surfaces

ceramics®

trance inducing range of glazed & polished
glazed vitrified tiles in surface options that are universally adaptable.

traditionally accepted for generations, easy
to maintain also budgeted. preferred choice for
transforming spaces especially on larger scales.

conventional surfaces

pgvt

polished glazed glossy tile that's non textured, reflective, stain resistant, low maintenance & economical surface.

high gloss

light colour designs curated on a super white backdrop with extra clear top glaze achieving extreme sharpness & clarity of the details.

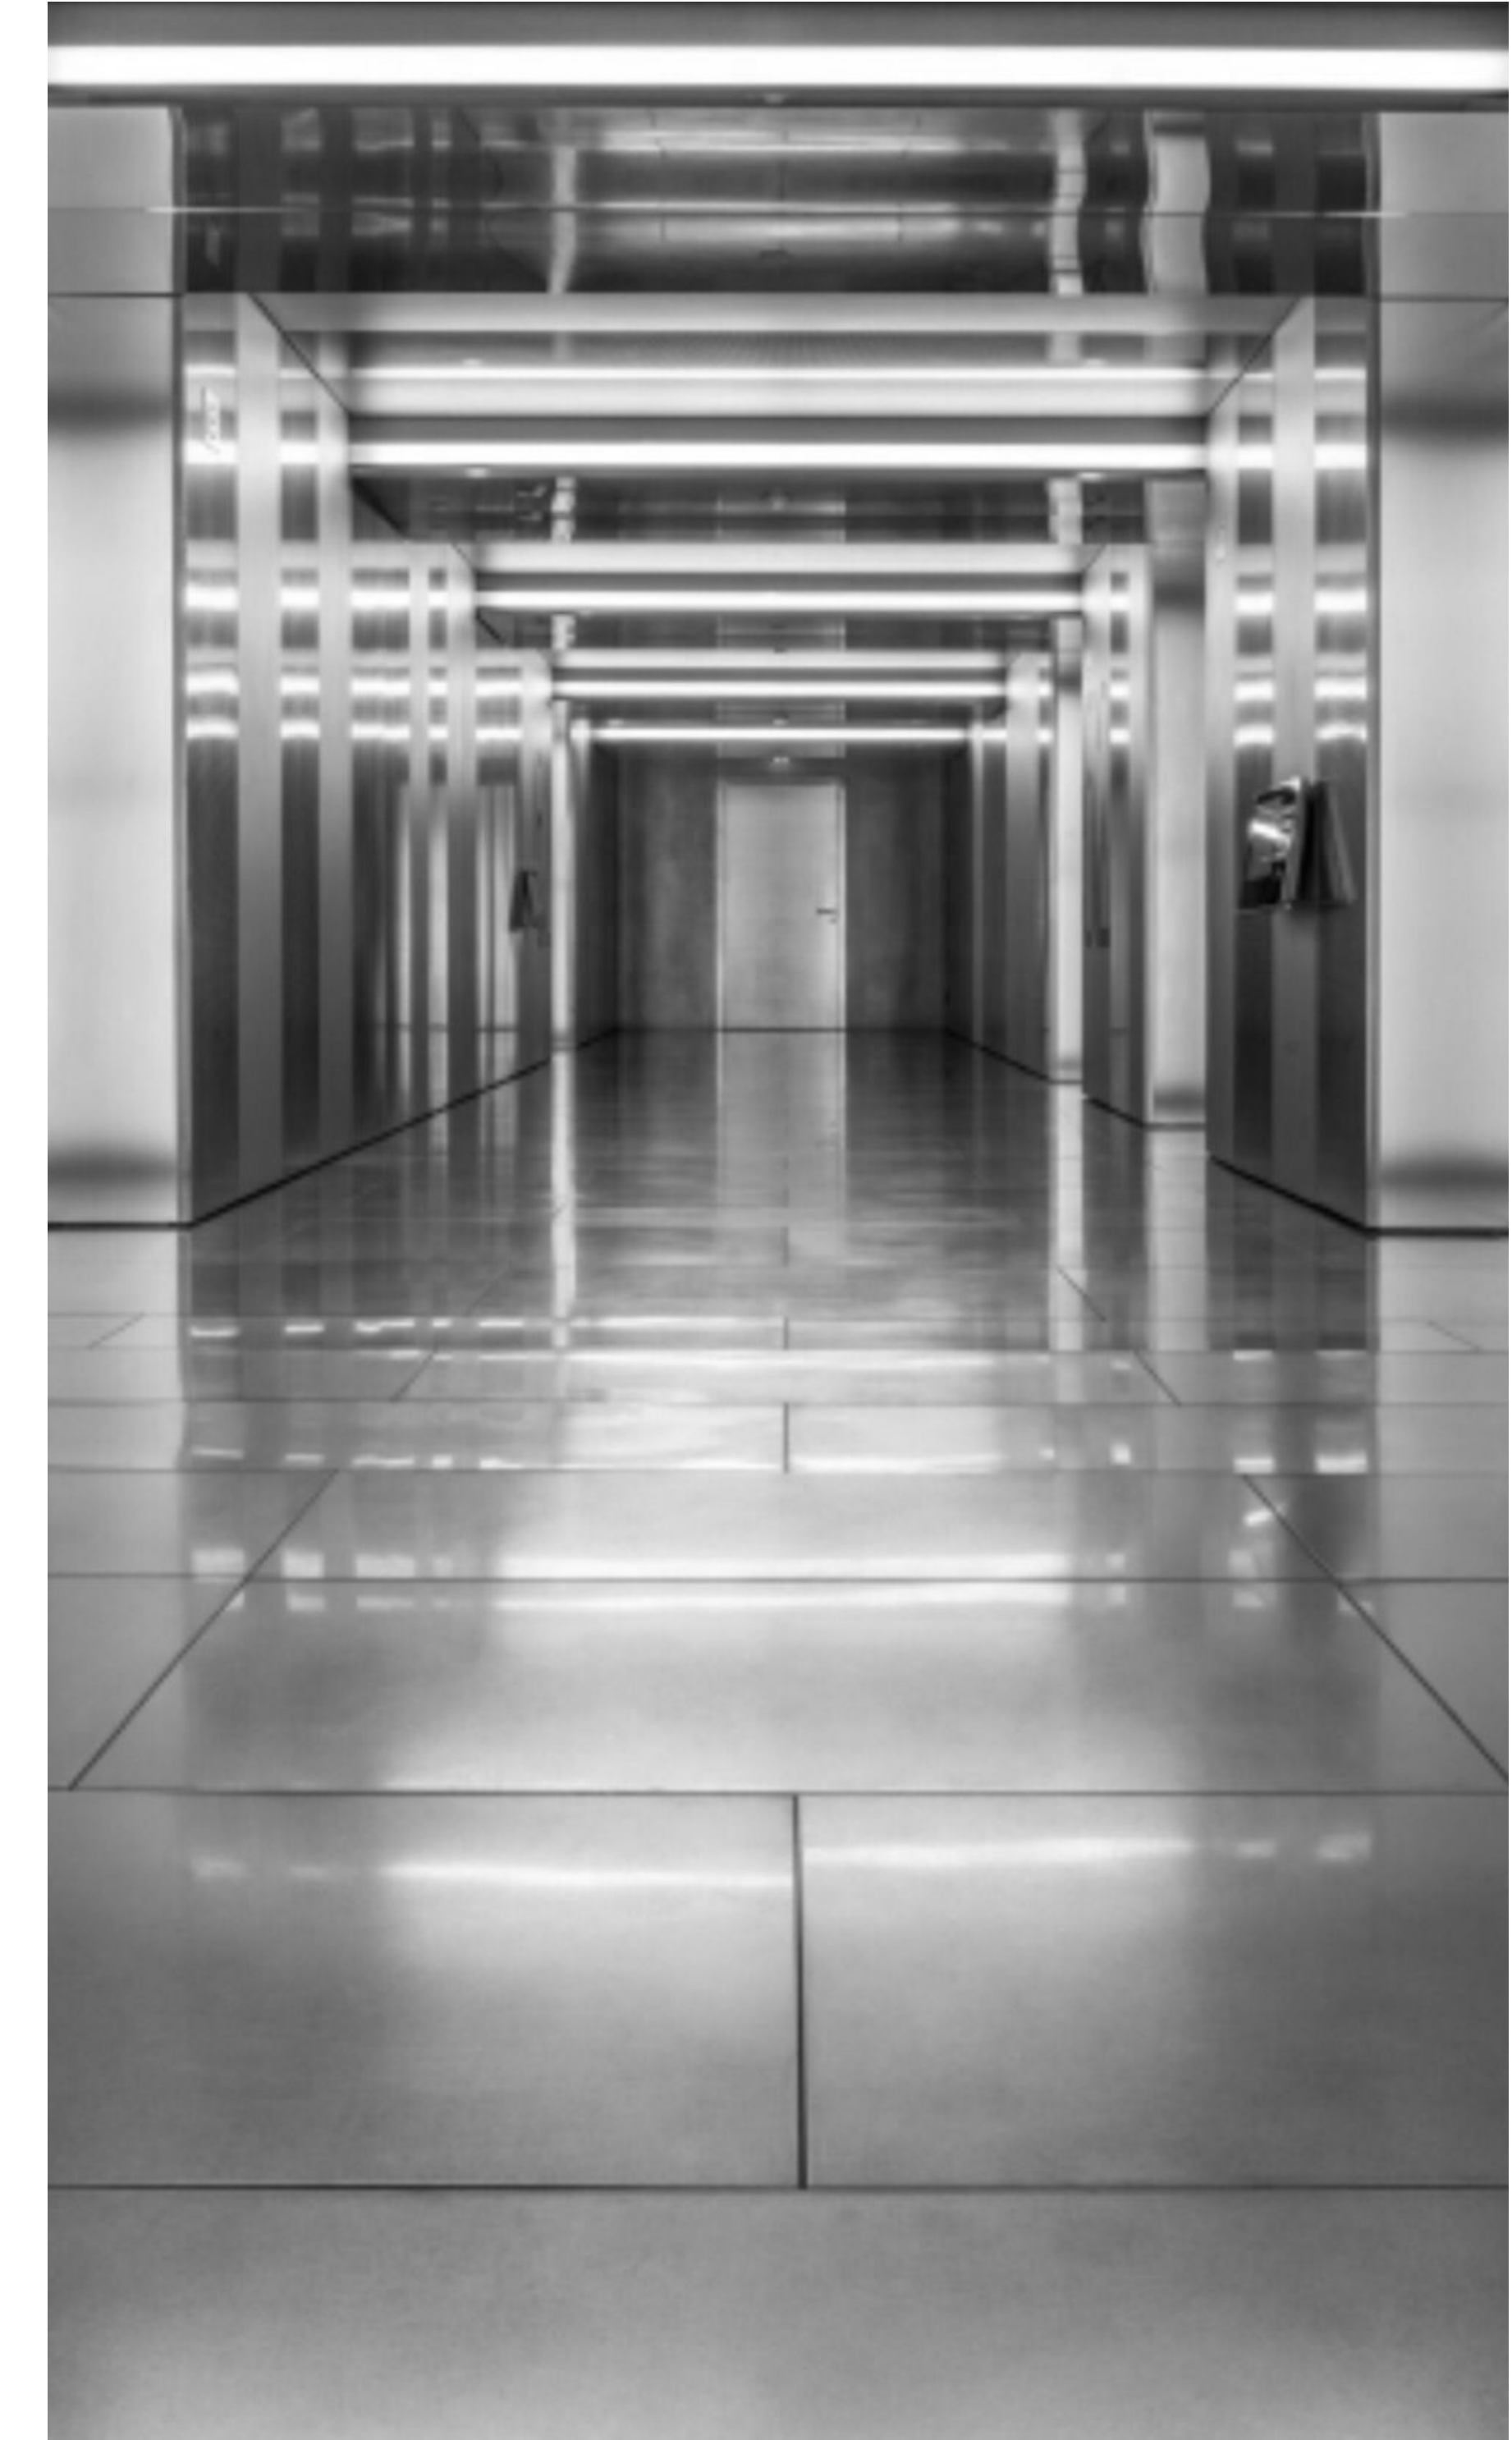

dark high gloss

mirror like reflections visible on designs curated in dark colours. depth & sharpness in printing gives rich & extremely reflective gloss visibility.

carving

mild shiney carving glitters randomly as if its scattered all over the textured areas on precasted raw patchy floors in classy colour palette choices.

pristine matt

scratch proof abrasion resistant non polished glazed tile that's elegantly subdued easy to maintain non textured surface.

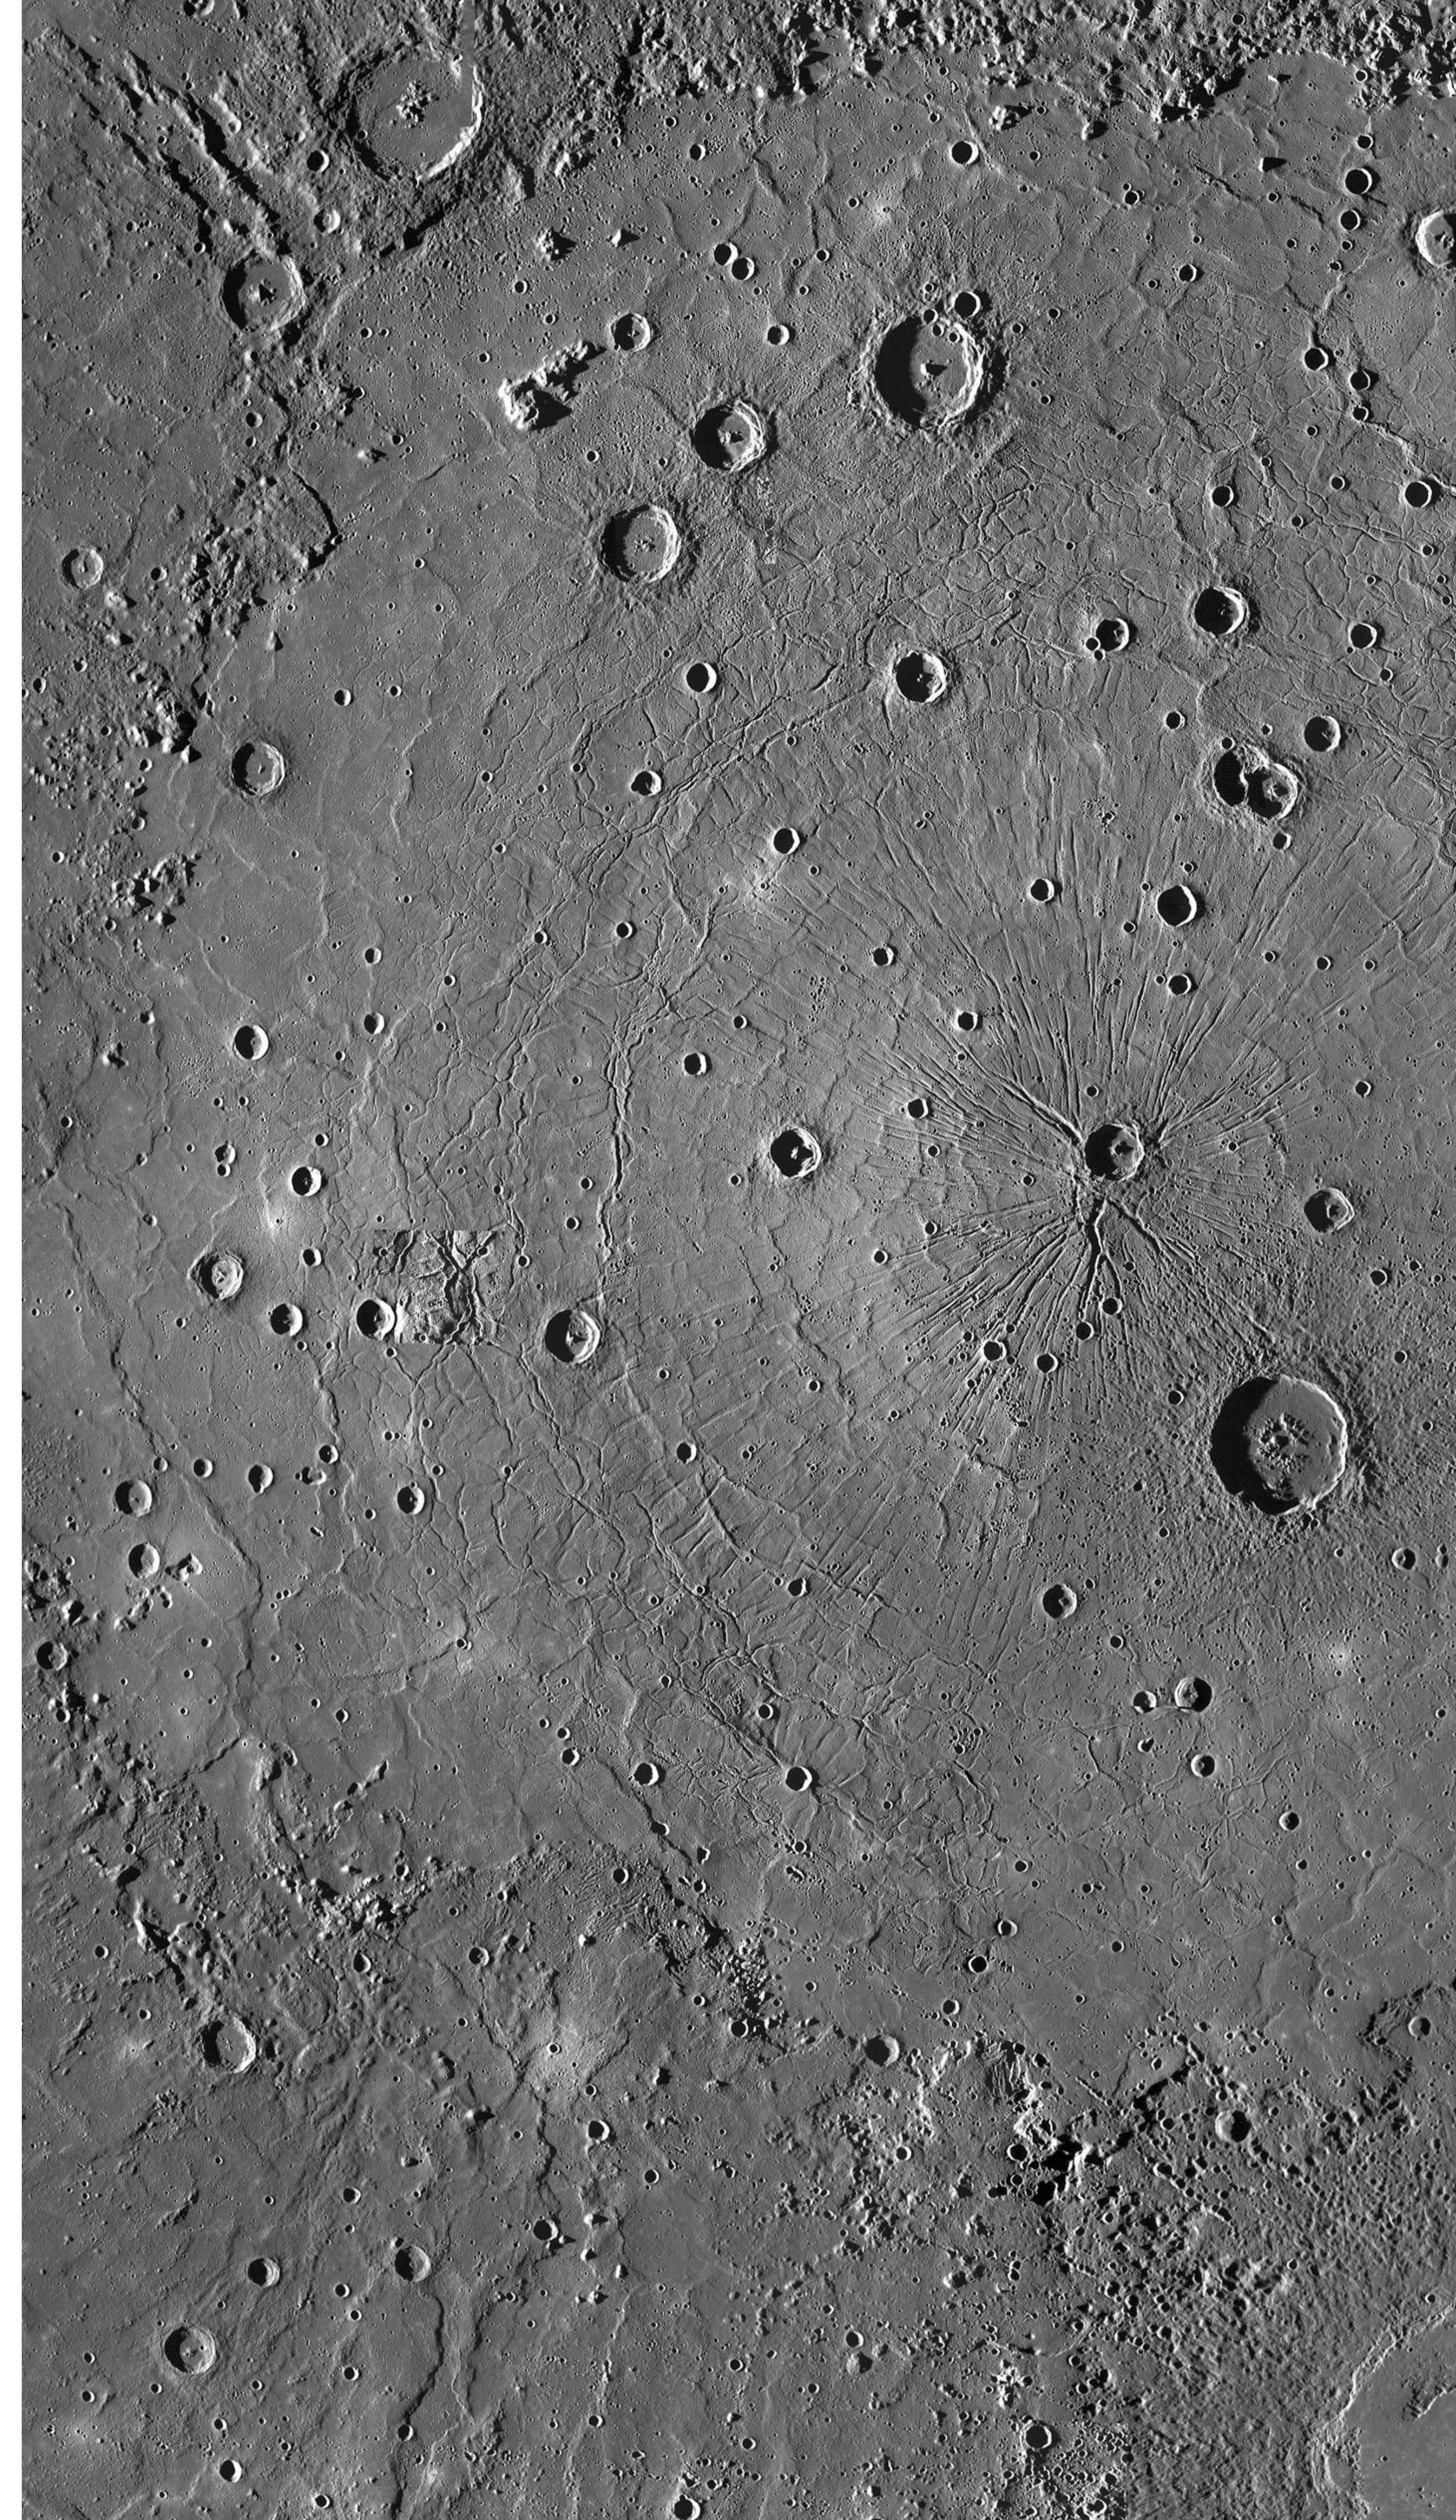

Grafitè | premium surfaces

ceramics®

trailblazers often challenges the odds &
emerges as progressive trendsetters. so is our mindset & our range of premium surfaces

question remains?

do you have the audacity to be a rebel, let people notice the unforgettable.

premium surfaces

frost

dead matt non reflective
smooth surface with veins that
are textured & crafted using
transparent yet shiny ink
that's reflective at certain angles.

rugged

surface appears rough &
extremely textured whereas in
reality it's a smooth matt finish
with a anti skid property.
footware's gripping strength
increases when floor is wet.

cleft

it's a granula base grains like
textured surface with a touch &
feel similar to a jute carpet that
gives added grip yet soft matt &
easy to clean.

vouge

touch & feel similar to a printout
taken on a matt paper. no glaze
used, digitally printed base coat
provides extreme flatness.
surface is soft & easy to clean
with zero reflections.

marble

appearance is similar to a used
italian marble flooring. granula
base intermediate lappato like
soft & smooth, non textured
surface which leaves no finger
print marks visibility.

white's

in essence, white is a blank page of a notebook that waits to be written upon. as a virtuous color, white is uplifting, offering mood quietness and mental organization.

the color of purity and innocence. white is a true balance of all colors. it is associated with cleanliness and perfection. it makes others feel good and provides hope and clarity by refreshing and purifying the mind. it also promotes open-mindedness and self-reflection. it's a serene and calming hue that symbolizes new beginnings.

grey's

grey is the colour intermediate between black and white, as of ashes or lead.

grey is a cool, neutral, and balanced color. the color grey is an emotion- less, moody color that is typically associated with meanings of dull, dirty, and dingy, as well as formal, conservative, and sophisticated. the color grey is a timeless and practical color that is often asso- ciated with loss or depression. the grey color affects the mind and body by causing unsettling feelings. light greys are feminine in nature, while dark greys are masculine in nature.

beige's

beige is a pale yellow color made up of gray, brown and yellow. it represents the natural color of wool. the warmth this color exudes embraces us with a homey feeling.

the color of simplicity and comfort. beige embodies individuality. though people appreciate beige for its ability to foster tranquility, other loathe it because it's not all that intoxicating. no matter how you perceive beige, there's no denying that this welcoming color is simple and sweet.

dark's

*black is the absorption of all color
and the absence of light.*

the color black relates to the hidden, the secretive and the unknown, and as a result it creates an air of mystery. it keeps things bottled up inside, hidden from the world. this color gives protection from external emotional stress. it creates a barrier between itself and the outside world, providing comfort while protecting its emotions and feelings, and hiding its vulnerabilities, insecurities and lack of self confidence.

filler's

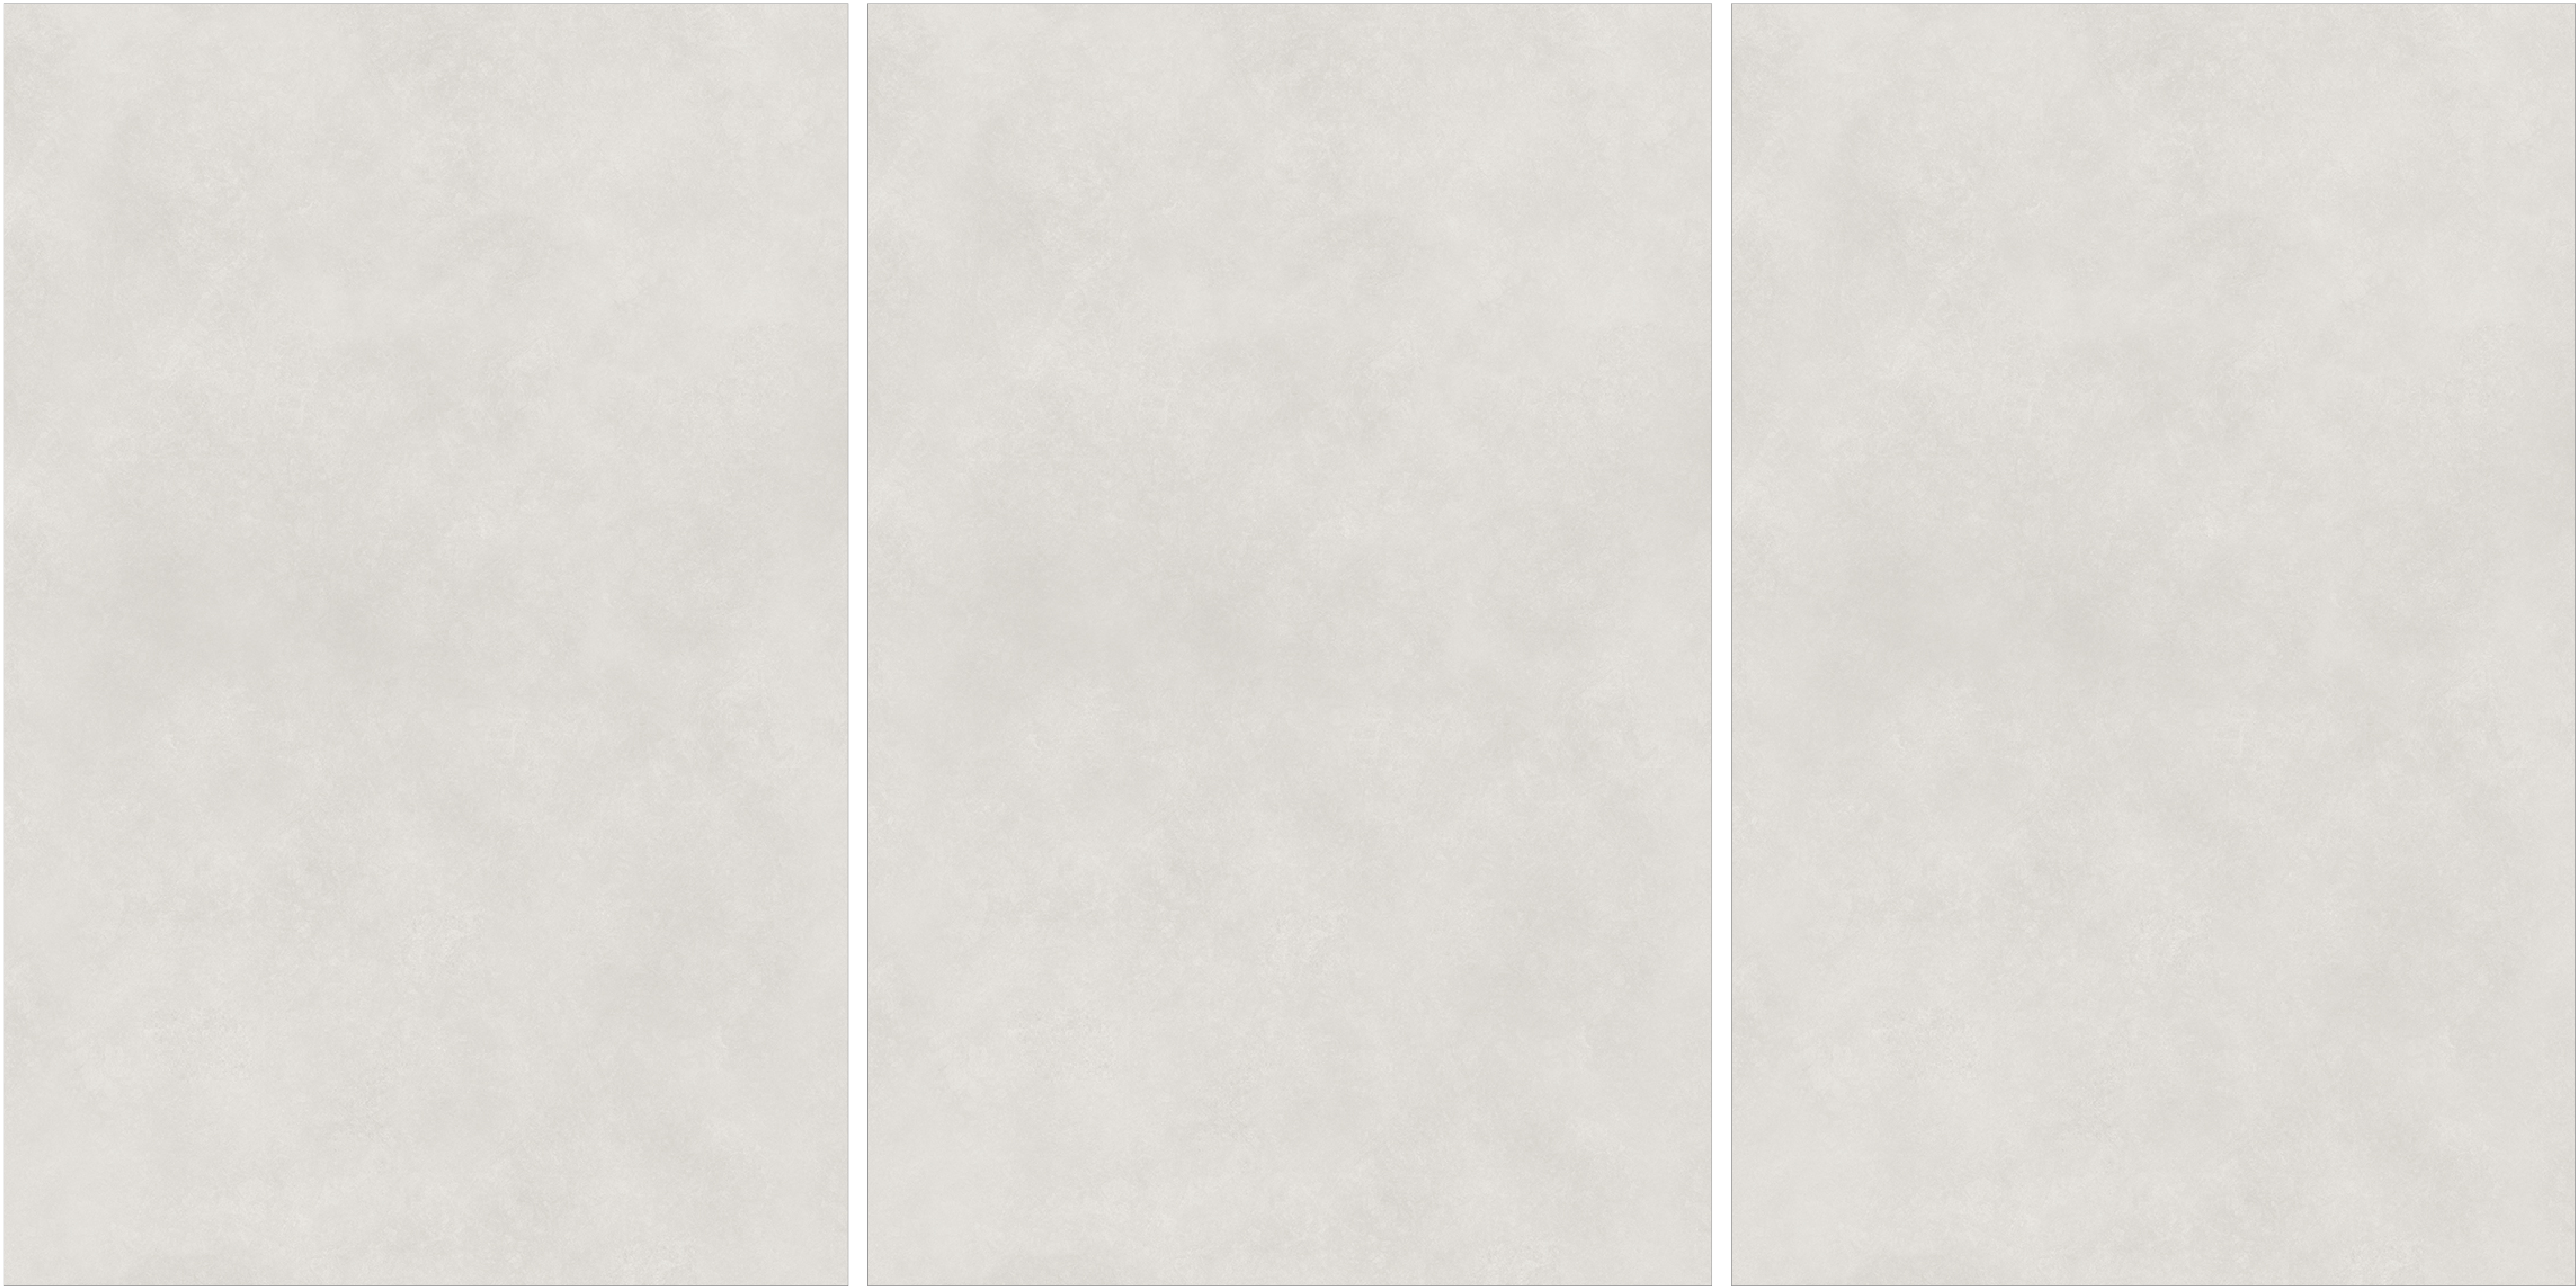

In general, a filler is something that is used to fill gaps.

Earth tone is a term used to describe a palette of colors that are similar to natural materials and landscapes. These colors are inspired by the earth's natural hues. Earth tone is used to bring harmony between nature surrounding the building and the building together. The tone improves relaxation in the house and residence, and also, the atmosphere of cozy warm luxurious modern. Due to the fact that earth tone or natural color is comfortable and pleasing to the eye. Earth tone can complement natural light that shines into the architecture by softening the light.
